STRATEGIC REPORT

The directors present their strategic report for the year ended 31 March 2015.

BUSINESS REVIEW

The company, a wholly-owned subsidiary of Marubeni Corporation, is headquartered in London, England and operates also through European branches in France, Germany, Spain and Italy.

The company's profit for the year, after taxation, is €7,032,000. The directors do not recommend the payment of a dividend.

The year ended 31 March 2015 has been another successful one for the company, continuing the run of profitable operations over the past five accounting periods. Operating profit of €7,592,000 was €165,000 higher than the operating profit of the comparative period. The above figure for operating profit includes dividends received from the company's equity holdings in investee companies, which are included within interest and similar income in the income statement. This source of income has largely replaced the net interest that was formerly earned from the group finance business, which has now all been transferred to Marubeni Finance Europe plc.

These results and performance measures are in line with the group targets set for the company under the current mid-term management plan, Global Challenge-2015 ("GC-2015"), the focus of which is on taking measures that are both defensive – by strengthening risk management, compliance, and control systems – and aggressive, by making new investment acquisitions aimed at bolstering future earnings streams and securing a strong financial base for the company. This strategy of seeking sustainable growth over the medium term is a key performance objective of the worldwide Marubeni group.

Key performance indicators

Due to the diversified nature of the company's activities, which cover many kinds of trading together with the financing of trade, the identification of key performance indicators is somewhat subjective. Among the company's key financial and other performance indicators during the year the directors have identified the following:

	2015 €'000	2014 €'000	Change %
Turnover	511,985	608,219	(15.8%)
Gross profit	41,207	37,823	8.9%
Operating profit	7,592	7,427	2.2%
Net interest earned	2,740	4,010	(31.7%)
Profit for the year	7,032	5,892	19.3%
Shareholder's equity	217,462	203,094	7.1%
Average number of employees (including secondees)	187	187	-%

From a trading point of view, operating profit is important, and from a financing perspective net interest earned (which includes dividend income receivable from the company's investments) is considered the best measure of performance. In the current year, whilst net interest and similar earned income decreased by €1,270,000, operating profit increased by €165,000. These results are considered satisfactory.

STRATEGIC REPORT (CONTINUED)

Management of risk

The company's business, in common with other general trading companies, is closely linked to its ultimate parent company and the wider Marubeni Corporation group with respect to trading transactions, ability to obtain funding and the reduction of credit risk. The company continues to enjoy steady growth and has reported profitable operations in each of the past five years, and accordingly the directors believe that it remains well positioned to continue to generate future trading profits.

Principal risks and uncertainties

The directors recognise that the company faces a wide range of financial and market risks in conducting its worldwide business activities. The principal risks and uncertainties are recognised as being financial, exchange, credit, liquidity and cash-flow risks. The directors consider the management of risk to be an important part of their function, and have put in place various strategies for the company and group undertakings, with the aim of limiting exposures to each of the above risks. These strategies to reduce the principal risks and uncertainties include the use of hedging, insurance, diversification of trading activities, and the use of financial instruments to fix price or forecast foreign exchange requirements as they arise. The company also takes steps to ensure its ongoing liquidity by negotiating adequate stand-by credit facilities with banks and financial institutions. These arrangements are more fully described in Note 1 of the financial statements. The directors have also implemented a comprehensive set of policies and guidance for business conduct and internal control. Given the on-going uncertainty in financial markets, the directors believe that a strong system of internal controls, combined with a focus on compliance and risk management, will contribute to the long-term survival and prosperity of the company through periods of economic uncertainty. The directors intend to continue to promote core trading operations whilst also seeking new opportunities for investment and diversification within risk parameters acceptable to the company.

Principal activities

The company's principal activities during the year continued to be international trading in a broad range of industrial, agricultural and consumer goods, commodities, natural resources, plant and machinery, and the provision of financing, insurance, computer and other services related to this trading. The company also holds share participations in a number of group companies operating in diverse business fields, or engaged in a variety of projects. The principal activities and operations of the company are expected to continue as described above.

Signed on behalf of the board

H Hanada
Director
25 June 2015

DIRECTORS' REPORT

Registered No. 01885084

The directors present their report for the year ended 31 March 2015.

DIRECTORS OF THE COMPANY

The following served as directors of the company during the year and up to the date of signing these financial statements:

H Hanada

N Iwashita

H Urata

J Kakizoe (appointed 01/04/15)

H Miyazawa (appointed 01/04/15)

S Iwamatsu (resigned 01/04/15)

T Saito (resigned 01/04/15)

Y Kannondo (resigned 01/04/15)

N. Iwashita is the Managing Director and Chief Executive Officer, with responsibility for the company's regional operations. He is supported by H. Hanada, Director and Chief Financial Officer, and three Deputy Managing Directors, J. Kakizoe, H. Miyazawa and H. Urata.

RESULTS AND DIVIDENDS

The company's profit for the year ended 31 March 2015 after taxation, amounted to €7,032,000 (2014 €5,892,000). The directors do not recommend the payment of a dividend (2014 - €nil).

FUTURE DEVELOPMENTS

Management's primary focus remains on the long-term prosperity of the company and wider group, their employees, and Marubeni's trading partners, so the main performance indicator over time is shown by the growth in net assets. For the year ended 31 March 2015 this growth amounted to €14,368,000, representing an increase of 7.1% in the net worth of the company for the year. The directors have consistently demonstrated their commitment to the long-term growth of the company by reinvesting the annual retained profits in the company, rather than declaring dividends to the company's parent. In line with the group's medium-term management plan "Global Challenge 2015", the company intends to continue operating and seeking growth in its established areas of business, while also consolidating recent equity acquisitions to contribute to increased profitability in the future. Group management has also expressed an intention to maintain a strong balance sheet by improving the quality of assets retained in the business, and by ensuring the generation of positive free cash flows from its trading and investing operations.

GOING CONCERN

The company's business includes long-term relationships with many customers and suppliers across different geographic areas and industries. Having reviewed the company's operations, its financial position, liquid resources and borrowing facilities, together with the continuing profitable performance of its parent company, and the financial strength of its own balance sheet, the directors believe that the company has adequate resources to continue as a going concern for the foreseeable future despite some continuing uncertainties in the economic environment. For this reason, they continue to adopt the going concern basis of accounting in preparing the annual financial statements. In addition, note 1 to the financial statements includes the company's policies and processes for managing its liquidity, credit and other financial risks, which the directors believe contribute to the company's ability to continue as a going concern.

DIRECTORS' REPORT (CONTINUED)

DISABLED EMPLOYEES

The company has a policy of giving full consideration to employment applications from disabled persons where the candidate's particular aptitudes and abilities are consistent with adequately meeting the requirements of the job. Where existing employees become disabled, it is the company's policy to provide continuing employment wherever practicable in the same or an alternative position and to provide appropriate training to achieve this aim.

EMPLOYEE INVOLVEMENT

It is the company's policy to seek opportunities to inform and involve its staff in all matters relating to its operations, encouraged standards of conduct, and strategic goals. During the year the company's parent continued its commitment to disseminate information throughout the worldwide group by means of frequent publication of emails, press releases, and opportunities for cultural and social involvement. Messages from the group's Chief Executive are distributed to all staff, together with an open channel for reply, commentary or suggestions. Employees may participate directly in the success of the business through the company's incentive-based performance evaluation system.

DIRECTORS' QUALIFYING THIRD PARTY INDEMNITY PROVISIONS

The company has arranged directors' and officers' liability insurance for all of its directors against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 2006. There is no qualifying third party indemnity provision in force either during the year or as at the date of approving the directors' report.

CHARITABLE CONTRIBUTIONS

Charitable contributions to various organisations totalling €14,750 were made during the year (2014 - €9,469).

DISCLOSURE OF INFORMATION TO THE AUDITORS

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s.418 of the Companies Act 2006.

AUDITORS

Ernst & Young LLP have indicated their willingness to be reappointed for another term and a resolution to re-appoint them will be proposed at the Annual General Meeting.

By order of the board

M Hammill
Secretary
25 June 2015

STATEMENT OF THE DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss of the company for that period.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT to the members of Marubeni Europe plc

We have audited the financial statements of Marubeni Europe plc for the year ended 31 March 2015 which comprise the income statement, statement of comprehensive income, the statement of changes in equity, the balance sheet and the related notes 1 to 26. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITOR

As explained more fully in the Directors' Responsibilities Statement set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Strategic Report and the Directors' Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

OPINION ON FINANCIAL STATEMENTS

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2015 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Eamonn McGrath (Senior Statutory Auditor)
for and on behalf of Ernst & Young LLP, (Statutory Auditor)

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES

Corporate information

The financial statements of the company for the year ended 31 March 2015 were authorised for issue in accordance with a resolution of the directors on 23 June 2015.

The company is a public limited company incorporated and domiciled in England with branches in four European countries. The registered office is located at 95 Gresham Street, London EC2V 7AB.

The principal activities of the company are described in the Strategic Report. Information on its ultimate parent is presented in Note 26.

Basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101). The company's financial statements are presented in Euros and all values are rounded to the nearest thousand (€000) except when otherwise indicated. The financial statements have also been prepared in accordance with the Companies Act 2006.

The financial statements have been prepared on a historical cost basis, except for derivative financial instruments and available-for-sale financial assets that have been measured at fair value. The carrying values of recognised assets and liabilities that are designated as hedged items in fair value hedges that would otherwise be carried at amortised cost are adjusted to record changes in the fair values attributable to the risks that are being hedged in effective hedge relationships.

The company has taken advantage of the following disclosure exemptions under FRS 101:

- a) the requirements of paragraphs 62, B64(d), B64(e), B64(g), B64(h), B64(j) to B64(m), B64(n)(ii), B64 (o)(ii), B64(p), B64(q)(ii), B66 and B67 of IFRS 3 Business Combinations. Equivalent disclosures are included in the consolidated financial statements of Marubeni Corporation in which the entity is consolidated;
- b) the requirements of paragraph 33 (c) of IFRS 5 Non current Assets Held for Sale and Discontinued Operations;
- c) the requirements of IFRS 7 Financial Instruments: Disclosures;
- d) the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement;
- e) the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of: (i) paragraph 79(a) (iv) of IAS 1, (ii) paragraph 73(e) of IAS 16 Property Plant and Equipment (iii) paragraph 118 (e) of IAS 38 Intangibles Assets, (iv) paragraphs 76 and 79(d) of IAS 40 Investment Property and (v) paragraph 50 of IAS 41 Agriculture;
- f) the requirements of paragraphs 10(d), 10(f), 16, 38A to 38D, 40A, 40B, 40C and 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements;
- g) the requirements of IAS 7 Statement of Cash Flows;
- h) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- i) the requirements of paragraph 17 of IAS 24 Related Party Disclosures;
- j) the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member ; and
- k) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c) to 135(e) of IAS 36 Impairment of Assets.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Basis of preparation (continued)

Separate financial statements

The company has taken advantage of the exemption clauses within the Companies Act 2006 s401 not to prepare consolidated accounts. The financial statements present information about the company as an individual entity and not about its group. The ultimate parent company of Marubeni Europe plc is Marubeni Corporation, a company incorporated in Japan, which prepares consolidated accounts in accordance with IFRS.

The accounting policies which follow set out those policies which apply in preparing the financial statements for the year ended 31 March 2015. The financial statements have been prepared on a going concern basis as set out in the directors' report on page 5.

Judgements and key sources of estimation uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

a) *Taxation*

Management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with an assessment of the effect of future tax planning strategies. Further details are contained in note 9.

b) *Pension and other post-employment benefits*

The cost of defined benefit pension plans and other post-employment benefits are determined using actuarial valuations. The actuarial valuations involve making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuations, the underlying assumptions and the long term nature of these plans, such estimates are subject to significant uncertainty. In determining the appropriate discount rate, management considers the interest rates of corporate bonds in the respective currency with at least AA rating, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The underlying bonds are further reviewed for quality, and those having excessive credit spreads are removed from the population of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds. The mortality rates are based on publicly available mortality tables for the specific country. Future salary increases and pension increases are based on expected future inflation rates for the respective country. Further details are given in note 24.

c) *Fair value of unquoted investments*

The unquoted equity investments have been fair valued based on the net asset value of the underlying investment where there is no externally observable market data available. The fair value of the unquoted equity instruments at 31 March 2015 was €121,957,000 (31 March 2014 - €116,184,000).

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Foreign currency translation

The company's financial statements are presented in Euros, which is also the company's functional currency. The Euro represents the currency of the primary economic environment in which the company operates. Transactions in foreign currencies are initially recorded in the entity's functional currency by applying the spot exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the balance sheet date. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Intangible assets

Intangible assets with finite lives are amortised over their useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement when the asset is derecognised.

Investments

Investments in subsidiaries, associates and joint ventures are held at historical cost less any applicable provision for impairment.

Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the company makes an estimate of the asset's recoverable amount in order to determine the extent of the impairment loss. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses on continuing operations are recognised in the income statement in those expense categories consistent with the function of the impaired asset. For assets where an impairment loss subsequently reverses, the carrying amount of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, not to exceed the carrying amount that would have been determined, net of depreciation, had no impairment losses been recognised for the asset or cash generating unit in prior years. A reversal of impairment loss is recognised immediately in the income statement, unless the asset is carried at a revalued amount when it is treated as a revaluation increase.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Tangible Fixed Assets - Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing component parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the company derecognises the replaced part, and recognises the new part with its own associated useful life and depreciation. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the income statement as incurred. The present value of the expected cost for the decommissioning of the asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual value, of each asset over its expected useful life as follows:

	<i>Depreciation rate (%) or period</i>	<i>Method</i>
Leasehold land and buildings	over the lease term, up to a maximum of 40 years	Straight line, zero residual value
Motor vehicles	over 4 to 6 years	Straight line, zero residual value
Fixtures and fittings	over 5 to 10 years	Straight line, zero residual value
Computer equipment	over 2 to 9 years	Straight line, zero residual value

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate. The carrying values of tangible fixed assets are reviewed for impairment if events or changes in circumstances indicate the carrying value may not be recoverable.

Assets in disposal groups classified as held for sale

Non-current assets and disposal groups are classified as held for sale only if available for immediate sale in their present condition, and a sale is highly probable and expected to be completed within one year from the date of classification. Such assets are measured at the lower of carrying amount and fair value less costs to sell and are not depreciated or amortised.

Leases:

Company as a lessee

Assets held under finance leases, which transfer to the company substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease, with a corresponding liability being recognised for the lower of the fair value of the leased asset and the present value of the minimum lease payments. Lease payments are apportioned between the reduction of the lease liability and finance charges in the income statement so as to achieve a constant rate of interest on the remaining balance of the liability. Assets held under finance leases are depreciated over the shorter of the estimated useful life of the asset and the lease term. Leases where the lessor retains a significant portion of the risks and benefits of ownership of the asset are classified as operating leases and rentals payable are charged in the income statement on a straight line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Leases (continued)

Company as a lessor

Assets leased out under operating leases are included in property, plant and equipment and depreciated over their estimated useful lives. Rental income, including the effect of lease incentives, is recognised on a straight line basis over the lease term. Where the company transfers substantially all the risks and benefits of ownership of the asset, the arrangement is classified as a finance lease and a receivable is recognised for the initial direct costs of the lease and the present value of the minimum lease payments. As payments fall due, finance income is recognised in the income statement so as to achieve a constant rate of return on the remaining net investment in the lease.

Financial assets

Initial recognition and measurement

Financial assets within the scope of IAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The company determines the classification of its financial assets at initial recognition. All financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date i.e., the date that the Company commits to purchase or sell the asset. The company's financial assets include cash and short-term deposits, trade and other receivables, loan notes, quoted and unquoted financial instruments, and derivative financial instruments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition at fair value through profit or loss. Financial assets are classified as held for trading if they are acquired for the purpose of selling in the near term.

This category includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by IAS 39. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through profit and loss are carried in the balance sheet at fair value with changes in fair value recognised in other operating income or other operating expense in the income statement.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest rate (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance revenue in the income statement. The losses arising from impairment are recognised in the income statement in other operating expenses.

Available-for-sale financial assets

Available-for-sale financial assets include equity securities. Equity investments classified as available-for sale are those which are neither classified as held for trading nor designated at fair value through profit or loss.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Available-for-sale financial assets (continued)

After initial measurement, available-for-sale financial investments are subsequently measured at fair value with unrealised gains or losses recognised as other comprehensive income in the unrealised gains and losses reserve. When the investment is derecognised, the cumulative gain or loss is recognised in other operating income, or determined to be impaired, at which time the cumulative loss is recognised in the income statement in other operating expenses and removed from the unrealised gains and losses reserve.

The company evaluates its available-for-sale financial assets and whether the ability and intent to sell them in the near term is still appropriate. When the company is unable to trade these financial assets due to inactive markets and management's intent significantly changes to do so in the foreseeable future, the company may elect to reclassify these financial assets in rare circumstances. Reclassification to loans and receivables is permitted when the financial asset meets the definition of loans and receivables and when the company has the intent and ability to hold these assets for the foreseeable future or until maturity.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value and in the case of loans and borrowings, plus directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in profit or loss.

Interest bearing loans and borrowings

Obligations for loans and borrowings are recognised when the company becomes party to the related contracts and are measured initially at the fair value of consideration received less directly attributable transaction costs. Gains and losses arising on the repurchase, settlement or otherwise cancellation of liabilities are recognised respectively in finance revenue and finance cost.

Derecognition of financial liabilities

A liability is generally derecognised when the contract that gives rise to it is settled, sold, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, such that the difference in the respective carrying amounts together with any costs or fees incurred are recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated balance sheet if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Fair values

The fair value of financial instruments that are traded in active markets at the reporting date is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques. Such techniques may include using recent arm's length market transactions; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis or other valuation models.

Derivative financial instruments and hedging

The company uses derivative financial instruments such as forward currency contracts and interest rate swaps to hedge its risks associated with foreign currency and interest rate fluctuations. Derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The fair value of interest rate swap contracts is determined by reference to market values for similar instruments. For those derivatives designated as hedges and for which hedge accounting is desired, the hedging relationship is formally designated and documented at its inception. This documentation identifies the risk management objective and strategy for undertaking the hedge, the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how effectiveness will be measured throughout its duration. Such hedges are expected at inception to be highly effective in offsetting changes in fair value or cash flows and are assessed on an on going basis to determine that they actually have been highly effective throughout the reporting period for which they were designated.

For the purpose of hedge accounting, hedges are classified as:

- fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment; or
- cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction;

Any gains or losses arising from changes in the fair value of derivatives that do not qualify for hedge accounting are taken to the income statement. The treatment of gains and losses arising from revaluing derivatives designated as hedging instruments depends on the nature of the hedging relationship, as follows:

Fair value hedges

For fair value hedges, the carrying amount of the hedged item is adjusted for gains and losses attributable to the risk being hedged; the derivative is remeasured at fair value and gains and losses from both are taken to profit or loss. For hedged items carried at amortised cost, the adjustment is amortised through the income statement such that it is fully amortised by maturity. When an unrecognised firm commitment is designated as a hedged item, this gives rise to an asset or liability in the balance sheet, representing the cumulative change in the fair value of the firm commitment attributable to the hedged risk.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Derivative financial instruments and hedging (continued)

The Company discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, the hedge no longer meets the criteria for hedge accounting or the Company revokes the designation. The company has interest rate swaps that are used as a hedge for the exposure of changes in the fair value of several fixed rate loans receivable. See Note 15 for further details.

The company's financial instruments, other than short term debtors and creditors and derivatives, comprise fixed asset investments, bank loans, other loans to and from related and unrelated parties, notes, cash, time deposits and fixed asset investments (excluding investments in associates). The main purpose of these financial instruments is to raise and manage finance for the company's trading operations. The company also makes trade investments in other group companies at the request of Marubeni Corporation.

The company also enters into derivative transactions (principally interest rate swaps, currency swaps, forward currency exchange contracts and commodity futures contracts). The purpose of these transactions is to manage the interest rate, currency and commodity price risks arising from the company's operations and its sources of finance.

The company participates in a cash pooling scheme along with selected European based fellow subsidiaries of Marubeni Corporation in order to maximise net interest earned on cash reserves. It is the company's policy not to engage in trading in financial instruments. Derivative financial instruments are solely used for hedging purposes. The main risks arising from the company's financial instruments are interest rate risk, liquidity risk, foreign currency risk, credit risk and commodity market price risk. The board considers these risks, and agrees policies for managing each of them, in order to ensure the long-term stability of the company's operations.

Interest Rate Risk

The company borrows in various currencies, normally in order to meet specific lending or investment opportunities, at predominantly floating rates of interest, except where fixed rate assets are to be funded. Where necessary the company then uses interest rate swaps to generate the desired interest profile and to manage the group's exposure to interest rate fluctuations. The company's policy continues to be to maintain a broadly matched profile between fixed and floating interest rate exposures.

Liquidity Risk

The company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans, commercial paper and group funding, at the same time seeking to obtain funding at favourable borrowing rates. Details of the company's long-term debt are summarised in Notes 17 and 19.

Foreign Currency Risk

As a result of the significant international transactions in US dollars, Japanese yen and other foreign currencies, and the fact that the parent's functional currency is the Euro, the company's balance sheet can be significantly affected by movements in exchange rates. However, the company takes steps to reduce the potential for such effects by managing its currency exposures through the use of spot and forward currency exchange contracts, by maintaining asset and liability exposures in matched currencies, and by the use of currency swap contracts.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes all costs incurred in bringing each product to its present location and condition, as follows:

Raw materials and consumables - purchase cost on a first-in, first-out basis

Cost of stock includes the transfer from equity of gains and losses on qualifying cash flow hedges in respect of the purchase of materials. Net realisable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal.

Trade and other debtors

Trade debtors, which generally have 30-90 day terms, are recognised and carried at the lower of their original invoiced value and recoverable amount. Where the time value of money is material, receivables are carried at amortised cost. Provision is made when there is objective evidence that the company will not be able to recover balances in full. Balances are written off when the probability of recovery is assessed as being remote.

Cash at bank and in hand

Cash and short term deposits in the balance sheet comprise cash at banks and in hand.

Income taxes

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, with the following exceptions:

Deferred income tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carried forward tax credits or tax losses can be utilised.

Deferred income tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply when the related asset is realised or liability is settled, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date. Deferred income tax assets and liabilities are offset, only if a legal enforcement right exists to set off current tax assets against current tax liabilities, the deferred income taxes relate to the same taxation authority and that authority permits the company to make a single net payment.

Income tax is charged or credited to other comprehensive income if it relates to items that are charged or credited to other comprehensive income. Similarly, income tax is charged or credited directly to equity if it relates to items that are credited or charged directly to equity. Otherwise income tax is recognised in the income statement.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

1. ACCOUNTING POLICIES (continued)

Pensions

The company, in conjunction with other fellow subsidiary undertakings, operates a defined benefit pension scheme in the UK, which requires contributions to be made to a separately administered fund. With effect from 1 April 2014, the scheme was closed to new entrants. Any increase in the present value of the liabilities expected to arise from employee service in the period is charged against operating profit and included as part of staff costs. The net interest cost on the scheme assets less liabilities is shown as a net amount of other finance costs included with interest payable and similar costs. Actuarial gains and losses are recognised immediately in other comprehensive income.

Pension scheme assets are measured using market values and liabilities are measured on an actuarial basis using the projected unit method. Actuarial valuations are obtained at least triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, net of related deferred taxation (where appropriate), is presented within provisions for liabilities on the face of the balance sheet. The company operates unfunded defined benefit pension arrangements in overseas branches which are accounted for in the same way as the UK scheme. In addition to this the company operates a defined contribution plan in the UK; the company pays contributions to a privately administered pension insurance plan on a mandatory and contractual basis. The company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due.

Exceptional items

The Company presents as exceptional items those material items of income and expense which, because of the nature and expected infrequency of the events giving rise to them, merit separate presentation to allow shareholders to understand better the elements of financial performance in the year, so as to facilitate comparison with prior periods and to assess better trends in financial performance.

Revenue recognition

Revenue is recognised to the extent that it is probable that economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, value added tax and other sales taxes. The company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or an agent. Where the company is deemed to be acting as principle the gross sales amount is recorded as revenue, where the company is deemed to be acting as an agent the net amount is recorded as revenue.

The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.

Rendering of services

Revenue from the provision of services recognised by reference to the stage of completion.

Interest income

Revenue is recognised as interest accrues using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to its net carrying amount.

Dividends

Revenue is recognised when the company's right to receive payment is established.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

2. TURNOVER

Turnover represents the invoiced amount of goods sold and accruals for services provided which fall within the company's ordinary activities, all of which are continuing.

	<i>Year ended 31.03.2015 €000</i>	<i>Year ended 31.03.2014 €000</i>
<i>Turnover comprises:</i>		
Principal sales	493,834	590,518
Other sales and commissions	18,151	17,701
	<u>511,985</u>	<u>608,219</u>

Marubeni Europe plc purchases, distributes and markets a wide variety of industrial, agricultural and consumer goods, commodities, natural resources and capital equipment to a multitude of industries, and provides financing, insurance, computer and other services related to this trade.

The company operates on a worldwide basis and derives its income from these trading service activities. The directors are of the opinion that its total general trading business constitutes one class of activity. Accordingly its turnover and pre-tax result have not been broken down into classes of activity.

3. OPERATING PROFIT

This is stated after charging:

	<i>Year ended 31.03.2015 €000</i>	<i>Year ended 31.03.2014 €000</i>
Depreciation (Note 10)	542	541
Net loss on foreign currency exchange differences	1,420	46
Operating lease rentals - land and buildings	2,645	3,187
- others	90	91
Cost of stocks recognised as an expense (included in cost of sales) and write-down of stocks to net realisable value	84	18
	<u> </u>	<u> </u>

4. AUDITOR'S REMUNERATION

The company paid the following amounts to its auditor in respect of the audit of the financial statements.

The remuneration of the auditor is analysed as follows:

	<i>Year ended 31.03.2015 €000</i>	<i>Year ended 31.03.2014 €000</i>
Audit of the financial statements	313	289
	<u> </u>	<u> </u>

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

4. AUDITOR'S REMUNERATION (continued)

The company has taken advantage of the option not to disclose amounts paid for non-audit services as these are disclosed in the group accounts of its parent Marubeni Corporation.

5. DIRECTORS' REMUNERATION

	<i>Year ended</i> 31.03.2015	<i>Year ended</i> 31.03.2014
	€000	€000
Aggregate remuneration in respect of qualifying services	2,826	2,047
The amounts in respect of the highest paid director were as follows:		
Aggregate remuneration	1,107	958
The directors' pension arrangements are disclosed in Note 24.		

6. STAFF COSTS

	<i>Year ended</i> 31.03.2015	<i>Year ended</i> 31.03.2014
	€000	€000
Wages and salaries	19,547	18,403
Social security costs	1,864	1,994
Other pension costs	900	940
	22,311	21,337

Included in other pension costs are €553,000 (2014- €592,000) in respect of the funded defined benefit scheme.

The average monthly number of employees during the year was made up as follows:

	<i>Year ended</i> 31.03.2015	<i>Year ended</i> 31.03.2014
	No.	No.
Trading	91	94
Administration	56	55
	147	149

In addition, 40 (2014 - 38) personnel employed by Marubeni Corporation were seconded to work for the company during the year. The salary costs of these personnel, which are included in the above figures, are borne by Marubeni Europe plc.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

7. INTEREST RECEIVABLE AND SIMILAR INCOME

	<i>Year ended 31.03.2015</i>	<i>Year ended 31.03.2014</i>
	<i>€000</i>	<i>€000</i>
Loans receivable and other debtors	47	31
Amounts receivable from group undertakings	1,918	4,022
	<u>1,965</u>	<u>4,053</u>
Net gain on financial assets and financial liabilities at fair value through profit and loss		
Income from shares in group undertakings	1,622	686
Income from unlisted trade investments	465	2,139
Bank deposit interest	462	544
	<u>4,514</u>	<u>7,422</u>

8. INTEREST PAYABLE AND SIMILAR CHARGES

	<i>Year ended 31.03.2015</i>	<i>Year ended 31.03.2014</i>
	<i>€000</i>	<i>€000</i>
Bank loans and other loans wholly repayable within five years	1,442	3,053
Amounts payable to group undertakings	154	197
Net interest paid on pension scheme	178	162
	<u>1,774</u>	<u>3,412</u>

9. TAXATION

The taxation charge is made up as follows:

	<i>Year ended 31.03.2015</i>	<i>Year ended 31.03.2014</i>
	<i>€000</i>	<i>€000</i>
Current tax:		
UK corporation tax	491	530
Tax under/(over)-provided in prior years (UK)	190	(107)
	<u>681</u>	<u>423</u>
Overseas tax:		
Withholding tax on interest and dividends	-	1
Overseas corporate taxes	1,694	1,352
Tax under/(over)-provided in prior years (overseas)	277	(51)
	<u>2,652</u>	<u>1,725</u>
Current tax	2,652	1,725
Deferred tax:		
Overseas deferred tax – origination and reversal of timing differences	32	6
	<u>2,684</u>	<u>1,731</u>

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

9. TAXATION (continued)

Tax relating to items charged or credited to other comprehensive income:

	<i>Year ended 31.03.2015 €000</i>	<i>Year ended 31.03.2014 €000</i>
Deferred tax:		
Tax on net movement on cash flow hedges	(711)	107
Tax on defined benefit pension plans	385	-
	<u>(326)</u>	<u>107</u>

Factors affecting current tax charge (reconciliation of tax)

The tax assessed on the profit on ordinary activities for the year is higher (2014 - higher) than the standard rate of corporation tax for the region in which the company operates of 25.68% (2014 – 27.3%). The differences are reconciled below:

	<i>Year ended 31.03.2015 €000</i>	<i>Year ended 31.03.2014 €000</i>
Profit on ordinary activities before tax	9,716	7,623
Profit before tax multiplied by relevant rate (1) of corporation tax to reflect results of European operations (25.68%) (2014 – 27.3%)	<u>2,495</u>	<u>2,081</u>
Timing differences	-	204
Non-taxable (gains)/losses on sale or impairment provisions of investments	(521)	313
Non-taxable income, disallowed expenditure, and other differences	211	(716)
Overseas withholding taxes	-	1
Net effect of tax under/(over)-provided in prior years	467	(158)
Overseas deferred tax – origination and reversal of timing differences	<u>32</u>	<u>6</u>
Total tax	<u>2,684</u>	<u>1,731</u>

- (1) The relevant tax rate is 25.68% (2014 – 27.3%). This reflects the fact that the company has branches across Europe - significantly in Germany, Italy, and France, where profits are taxed at rates which are higher than the UK rate of Corporation Tax.

Deferred Tax

Deferred tax assets have been recognised in the Balance Sheets in respect of current timing differences for accounting provisions and on the pension fund liability as set out in Notes 1 and 24. The year-end provision is as follows:

	<i>31 March 2015 €000</i>	<i>31 March 2014 €000</i>
Deferred tax asset (non-current)		
on timing differences for accounting provisions	(595)	126
on German pension liability	746	383
	<u>151</u>	<u>509</u>

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

9. TAXATION (continued)

The deferred tax assets not recognised in the financial statements are as follows:

	<i>31 March</i>	<i>31 March</i>
	<i>2015</i>	<i>2014</i>
	<i>€000</i>	<i>€000</i>
Timing differences on unclaimed capital allowances	2	177
Pension scheme liability (UK scheme)	1,785	826
	<u>1,787</u>	<u>1,003</u>
	<u><u>1,787</u></u>	<u><u>1,003</u></u>

With effect from 1 April 2013, the directors made an election under s.18A of the Corporation Tax Act 2009 to exempt the company's overseas permanent establishments from UK taxation. This reduced deferred tax by eliminating certain UK timing differences originating in European branches.

There are deferred tax assets of €1,787,000 (2014 – €1,003,000) arising from timing differences on unclaimed UK capital allowances and on the net liability on the UK defined benefit pension scheme which have not been recognised in the financial statements due to uncertainty surrounding the availability of suitable taxable profits against which these could reverse in the future.

The Finance Act 2013 enacted reductions in the rate of UK Corporation Tax to 21% with effect from 1 April 2014, and 20% with effect from 1 April 2015. The unrecognised UK deferred tax assets have therefore been calculated at 20%.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

10. TANGIBLE FIXED ASSETS

12. INVESTMENTS – NON-CURRENT (continued)

There were no disposals of shares in Marubeni Europe group companies and their investments during the year (2014 none).

The company holds 20% or more of the equity of the following unlisted companies at 31 March 2015:

<i>Name of Company</i>	<i>Country of Incorporation if not United Kingdom</i>	<i>Proportion of voting rights and shares held</i>	<i>Nature of business</i>	<i>Accounting year end</i>
Subsidiary undertakings:				
Hadis Export-Import GmbH	Germany	Ordinary shares 100%	In liquidation	31 December
Marubeni Specialty Chemicals (Europe) GmbH	Germany	Ordinary shares 100%	In liquidation	31 December
Marubeni Deutschland GmbH	Germany	Ordinary shares 100%	In liquidation	31 December
Associated undertakings:				
Marubeni Pulp and Paper Sales (Europe) GmbH	Germany	Ordinary shares 40%	In liquidation	31 December
Yokohama Austria GmbH	Austria	Ordinary shares 27%	Tyre distribution	31 December
I. Marubeni s.r.o.	Czech Republic	Ordinary shares 20%	Engineering and Construction	31 December
Marubeni (Hungary) Engineering and Construction Kft	Hungary	Ordinary shares 20%	Engineering and Construction	31 December
Marnix Europe Limited		Ordinary shares 20%	Insurance consultant	31 March

13. INVESTMENTS CURRENT

	<i>31 March 2015</i>	<i>31 March 2014</i>
	<i>€000</i>	<i>€000</i>
Financial assets – due within one year		
Future commodity derivative contracts	25	949
Forward currency hedging contracts	3,488	135
	<u>3,513</u>	<u>1,084</u>
Financial assets – due after one year		
Forward currency hedging contracts	-	21
	<u>-</u>	<u>21</u>

The fair value of forward currency exchange contracts was determined using quoted forward exchange rates matching the maturity of the contracts. While for the interest rate swaps the fair value was determined using discounted cash flow analysis at quoted interest rates.

The cash flow hedges of the expected future sales in 2015 were assessed as effective and an unrealised gain of €2,190,000 was included within other comprehensive income, net of the reversal of the unrealised loss of €189,000 recognised in the previous year.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

14. STOCKS

	<i>31 March</i> 2015 €000	<i>31 March</i> 2014 €000
Goods for resale	33,959	25,783
Merchandise in transit	15,744	16,811
	<u>49,703</u>	<u>42,594</u>

Cost of stocks recognised as an expense (included in cost of sales) through write-down to net realisable value in the year was €84,000 (2014 - €18,000).

15. LOANS RECEIVABLE

	<i>31 March</i> 2015 €000	<i>31 March</i> 2014 €000
Within one year:		
Wholly due within one year from		
- fellow subsidiary undertakings	112	428
Current portion of long term loans receivable		
- due from fellow subsidiary undertakings	30,688	16,372
- due from unrelated parties	8	8
	<u>30,808</u>	<u>16,808</u>
After more than one year:		
- due from fellow subsidiary undertakings	54,718	69,960
- due from unrelated parties	337	338
	<u>55,055</u>	<u>70,298</u>
	<u>85,863</u>	<u>87,106</u>

Loans receivable due after more than one year represents amounts due from fellow subsidiaries and trading customers, mostly bearing interest at rates related to LIBOR and due for repayment over the period up to the year 2018.

€85,263,000 (2014 - €83,611,000) of loans receivable from group related parties (including fellow subsidiaries) are guaranteed by the company's parent company, Marubeni Corporation.

16. OTHER DEBTORS

	<i>31 March</i> 2015 €000	<i>31 March</i> 2014 €000
Net investment in finance leases	-	18

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

20. SHARE CAPITAL (continued)

Ordinary shares of £1 each are translated to Euros at 1.60928, being the exchange rate ruling at the time of converting the functional currency from Sterling to Euros.

On 28 May 2009, the company issued one Ordinary 1 Euro share to Marubeni Corporation at a premium of €2,123,000, which was credited to the share premium account. The share was issued as consideration for the purchase of 49% of the outstanding shares of Marubeni Specialty Chemicals (Europe) GmbH (“MSCE”) from Marubeni Corporation. As a result of this transaction, MSCE became a wholly-owned subsidiary of Marubeni Europe plc.

On 29 March 2006, the company issued one Ordinary 1 Euro share to Marubeni Corporation at a premium of €38,490,999, which was credited to the share premium account. The share was issued in exchange for all the shares held by Marubeni Corporation in three subsidiaries - Marubeni Iberia S.A. (“MI”), Marubeni France S.A. (“MF”) and Marubeni Deutschland GmbH (“MD”). Marubeni Europe had previously acquired all of the trading net assets of these subsidiaries upon the establishment of branch offices in 1999. In exchange for their net assets, each subsidiary company had received new shares in Marubeni Europe totalling 4,095,345 of the £1 shares and all 24,705,258 of the €1 shares then in issue. These shares in Marubeni Europe were the only significant assets in each subsidiary. By acquiring 100% of the shares in the three subsidiaries on 29 March 2006 Marubeni Europe gained control of 28,800,603 (42.8%) of its own issued shares, the remainder all being held by Marubeni Corporation. Management intends to liquidate all three subsidiaries and cancel all the shares held by them, leaving Marubeni Corporation as the sole shareholder. The first such liquidation – of MI – was completed on 30 September 2006, when its assets, consisting principally of its 389,114 £1 shares in Marubeni Europe, were transferred back to Marubeni Europe for cancellation, which occurred on 8 March 2007.

The second liquidation – of MF – was completed on 23 March 2007. The 3,706,231 £1 shares it held in Marubeni Europe were also transferred back to Marubeni Europe for cancellation as described below. The liquidation of MD, which holds 24,705,258 €1 shares in Marubeni Europe, commenced in December 2008 but due to statutory notice periods, and conclusion of the entity’s tax obligations, is not yet complete.

The effect of these transactions is that, as at 31 December 2006, Marubeni Europe held 389,114 of its own £1 shares surrendered by MI, and indirectly controlled a further 3,706,231 £1 shares and 24,705,258 €1 shares through its investments in MF and MD respectively.

At an extraordinary general meeting on 8 March 2007, a special resolution of shareholders approved the cancellation of the shares received from MI and, subject to and conditional on its liquidation, MF. On 27 March 2007, MF was duly liquidated, and the shares previously held by MI and MF were subsequently cancelled.

Presentation in the company balance sheets: In 2006 shares in Marubeni Europe received from MI were not included in the balance sheet as an investment but debited at the book value (cost) of the shares to a specially created capital reserve, a separate component of shareholders’ funds, to reflect the fact that the shares were subsequently cancelled in March 2007.

On cancellation of 4,095,345 shares in Marubeni Europe received from MI and MF (“cancelled shares”) in March 2007, the company recorded a debit to share capital matched by a credit to a specially created other reserve, a separate component of shareholder’s funds, which does not form part of the distributable reserves of the company (Note 21). A transfer from this reserve to the profit and loss account, within the shareholders’ fund, was made to the extent that net assets received in exchange for the original issue of the cancelled shares represented qualifying consideration as defined in section 3.11 of Technical Release Tech 02/10 issued by the Institute of Chartered Accountants in England and Wales.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

20. SHARE CAPITAL (continued)

In 2006 shares in MF and MD were shown as fixed asset investments at their acquisition cost. Following liquidation of MF, the company's investment in MF ceased to exist and its book value was recorded as a debit in the profit and loss account section of shareholder's funds, representing a realised loss on liquidation.

The liquidation of MF in March 2007 resulted in a reduction of the capital reserve balance. The remaining balance represents the book value of the company's investment in MD, which is currently in liquidation.*

*The presentation described above will continue until the liquidation of MD is completed.

21. RESERVES

Analysis by item recognised in other comprehensive income for each component of equity

Available for sale reserve

This reserve records fair value changes on available for sale investments.

Cash flow hedge reserve

The cash flow hedge reserve is used to record the portion of the gain or loss on a hedging instrument in a cash flow hedge that is determined to be an effective hedge.

Other reserve

Undistributable capital reserve account. A description of how this reserve arose is shown in Note 20 on page 39. During the year ended 31 March 2014, the disposal of certain assets originally held by Marubeni France and transferred to the company in 2007 gave rise to the release of €208,000 of this reserve to Retained Earnings, as shown in the Statement of Changes in Equity on page 12, leaving a remaining reserve balance of €93,000.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

23. CONTINGENT LIABILITIES AND COMMITMENTS (continued)

The company entered into a joint guarantee with Marubeni Corporation to guarantee trading and other obligations of fellow subsidiaries and associates. At 31 March 2015 contingent liabilities in respect of these were €141,630,000 (31 March 2014- €74,551,000).

As at 31 March 2015, the company is accountable for 73% of the net pension liabilities of the UK multi-employer pension scheme, for which it is the principal sponsoring employer. Effectively, the company also has a contingent liability in respect of this scheme should other participating employers be unable to meet their own obligations.

In 2006, the company was named as a joint defendant with Marubeni Corporation (“MC”) in a civil case in Indonesia in which a total claim of US\$10 million was filed. The action related to certain loan transactions conducted by the company on behalf of its parent, MC. Although the case was initially found in favour of the plaintiff, MC filed an appeal in a higher Indonesian court, which rejected the plaintiff’s entire claim.

In 2010, the company was again named as a joint defendant with MC and others in two new litigations filed by the same group in relation to the same loan transactions. During 2012, and again in July 2014, these latter cases were initially found in favour of the plaintiff in the regional courts, but MC has filed an appeal to the Indonesian Supreme Court that has yet to be heard. Management are of the opinion that it is not probable a liability will arise for the company, because MC has confirmed that it will indemnify the company and its officers for any costs or liabilities arising from all the litigation; therefore no net impact to the company is expected.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

24. PENSION COMMITMENTS

	<u>14,889</u>	<u>8,611</u>

UK Defined Benefit Pension Scheme

Marubeni Europe plc, in conjunction with other Marubeni group companies in the UK, operates a funded defined benefit pension scheme for the company's qualifying employees in the UK. With effect from 1 April 2014, the scheme was closed to new entrants.

Under the defined benefit scheme, each member's pension at retirement is related to their pensionable service and final pensionable salary. The weighted average duration of the expected benefit payments is around 23 years. The defined benefit scheme is operated from a trust, which has assets which are held separately from the company, and trustees who ensure the Fund's rules are strictly followed.

The pension cost of the scheme is determined with the advice of a qualified independent actuary on the basis of at least triennial valuations, using the projected unit method. The most recent full actuarial valuation was carried out as at 1 April 2013, with an updated valuation for the purposes of IAS19 (Revised) performed on the accounting date, 31 March 2015. As the company is one of several employers with employees in the scheme, the figures in the following disclosures reflect the company's share of the scheme liabilities. Marubeni Europe's portion of the total deficit of the scheme at 31 March 2015 was €8,926,000. The pension cost and the following disclosures are also based on an apportionment of liabilities in respect of deferred and pensioner members that were employed by employers who no longer have active members among employers that currently have active members.

The funding target is for the fund to hold assets equal in value to the accrued benefits based on projected salaries. If there is a shortfall against this target, the company and trustees will agree on deficit contributions. There is a risk to the company that adverse experience could lead to a requirement for the company to make additional contributions to recover future deficits that arise.

The company's treatment of actuarial gains and losses is to recognise them immediately through other comprehensive income.

Contributions are set based upon funding valuations carried out every three years; the next valuation is due to be carried out as at 31 March 2016. The estimated amount of total employer contributions expected to be paid in to the plan during the 2015/16 accounting year is €705,000.

The company is currently in discussion with the Trustees of the Fund in relation to a potential additional liability in respect of the Fund's benefits being calculated on a different basis than that implied by the Fund's governing documentation. As at 31 March 2015 no additional liability has been recognised in relation to this as it is uncertain at this early stage what the agreed final position will be.

Life expectancy of female aged 65 in year of accounting date + 20 years	27.4	27.3

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

24. PENSION COMMITMENTS (continued)

Estimated contributions

The employer's best estimate of contributions to be paid to the scheme by the company next year is €705,000. This amount is consistent with the schedule of contributions approved by the actuary. The employer's best estimate of contributions to be paid to the scheme by employees of the company next year is €164,000.

Sensitivity of obligations to alternative assumptions:

	<i>at 31/03/2015</i> €000	<i>at 31/03/2015</i> €000
<i>Discount rate</i>	<i>+0.5% pa</i>	<i>-0.5%pa</i>
Effect on defined benefit obligation of a 0.5% change	(3,364)	3,440
<i>Price inflation</i>	<i>+0.5% pa</i>	<i>-0.5%pa</i>
Effect on defined benefit obligation of a 0.5% change	2,864	(2,195)
<i>Life expectancy</i>	<i>-1 year</i>	<i>+1 year</i>
Effect on defined benefit obligation of a 1 year change	(1,008)	885

These sensitivities have been calculated to show the movement in the defined benefit obligation in isolation, and assuming no other changes in market conditions at the accounting date. This is unlikely in practice – for example, a change in discount rate is unlikely to occur without any movement in the value of the assets held by the Fund.

UK Defined Contribution scheme

Following the closure of the UK defined benefit scheme to new entrants on the 1 April 2014, the company provides a defined contribution (DC) scheme for its eligible employees joining after that date. The amount recognised as an expense for the DC scheme was €16000 (2014 nil).

Directors' pension arrangements

The directors are members of an overseas pension scheme in Japan and are not members of the UK scheme. No contributions to the scheme in Japan are paid by Marubeni Europe plc, and no benefits are remitted to the UK. The overseas scheme is funded by the parent company, Marubeni Corporation.

Overseas branches' unfunded defined benefit pension schemes

The company operates unfunded defined benefit pension arrangements for its overseas branches, in accordance with local legal requirements. The total cost to Marubeni Europe plc of these schemes for the year ended 31 March 2015 was €451,000 (31 March 2014 - €348,000). The accrued provisions for retirement benefits under these schemes as at 31 March 2015 were €5,963,000 (31 March 2014 - €4,480,000). An actuarial loss of €674,000 (net of tax of €385,000) was recognised in the Statement of Other Comprehensive Income in the current year (2014 loss - €29,000).

The most significant of such overseas pension schemes is operated in Germany for staff employed locally by the German branch. The directors obtained an actuarial valuation as at 31 March 2015 using the following assumptions: Discount rate of 1.2% (2014 – 3.4%) and increase in salaries of 2.5% (2014 – 2.5%). As the German scheme is unfunded, there are no assets held in trust to meet future benefit obligations. The movements in the scheme's liabilities during the year were as follows:

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 March 2015

25. RELATED PARTY TRANSACTIONS

During the year, the company entered into transactions, in the ordinary course of business, with other related parties. The company has taken advantage of the exemption under paragraph 8(k) of FRS101 not to disclose transactions with fellow wholly owned subsidiaries. Transactions entered into, and trading balances outstanding are as follows:

	<i>Sales to related parties €000</i>	<i>Purchases from related parties €000</i>	<i>Amounts owed from related parties €000</i>	<i>Amounts owed to related parties €000</i>
Transactions with subsidiary undertakings				
Year ended 31 March 2015	80	1,786	66	-
Year ended 31 March 2014	1,865	-	82	-
Transactions with affiliated companies				
Year ended 31 March 2015	25,812	-	16,018	-
Year ended 31 March 2014	24,150	13	17,109	-

Amounts owed from/to related parties are trade related and arise as part of the normal operations of the company.

Details of the level of ownership, which Marubeni Corporation has in the above-mentioned entities, are as follows:

	<i>Ownership %</i>
<i>Subsidiary undertakings</i>	
Marubeni Cement & Construction Materials Co., Ltd	90.00
Welmar Europe B.V.	85.00
<i>Affiliated companies</i>	
GFS Renewable Energy Limited	50.00
Yokohama Austria	27.00
Yokohama Iberia S.A.	49.00
Yokohama Reifen GmbH	25.00

Directors' loans

A facility is made available for the Directors of the Company to borrow a maximum of £20,000, repayable on an instalment basis on a LIBOR+ based interest rate. During the year, two directors made use of this facility. Mr H Hanada had a maximum outstanding balance of £10,000 during the year and made repayments of £4,840 including interest at a rate of 3%, with £5,400 outstanding at the end of the year. Mr H Urata had a maximum outstanding balance of £19,000 during the year and made repayments of £3,500 including interest at a rate of 3%, with £15,855 outstanding at the end of the year.

26. ULTIMATE PARENT COMPANY

The immediate and ultimate parent company and controlling party is Marubeni Corporation, which is incorporated in Japan. Copies of Marubeni Corporation's financial statements, which represent the only group in which this company's financial statements are included, can be obtained from Marubeni Corporation's head office at 4-2 Ohtemachi 1-Chome, Chiyoda-ku, Tokyo, Japan.
